## **CONCEPT NOTE**

*GST is India's most significant indirect tax reform in decades. It is expected to usher in a harmonized national market of goods and services and shall lead to a simplified, assessee-friendly tax administration system. Once implemented, it will subsume all the Central and State-level duties and taxes, thus making the country a national market and would contribute significantly to the growth of the economy.*

*GST represents not just a change in the indirect tax regime, but also a business transformation.*

*Gearing up for such a change in the processes, understanding the new legislation and redesigning the IT systems for being GST compliant is the need of the hour. With this background, Mankar College has organized a state level webinar to deliberate on the key GST issues, which helps clarify and understand the GST implementation better.*
