CONCEPT NOTE

Universities, Colleges, and public research institutions are among the direct contributors towards innovation and research in various disciplines. The potential pool of talent for innovation contributing towards the emerging economy also emanates largely from educational and research institutions. Thus, the significance of Intellectual Property Rights (IPR) in higher education has been widely recognized. This could be credited to the National IPR Policy approved by the Union Cabinet in May 2016, which was the first-ever IPR policy framed by the Government of India. This Webinar will give an overview and focus on the legal aspects of Intellectual Property Rights (IPR) in Higher Educational Institutions.
